WOTS Reporting Guide

(U) TIME ZONE: Central Standard Time

1. (U) **Situation.** WOTS is an eight-week, in-residence accessions program located at Maxwell Air Force Base in Montgomery, Alabama. The goal of WOTS is to develop professional warrant officers who can advise and integrate at varying organizational levels. This program is designed to educate and train candidates with specialized knowledge or technical skills who can serve as technical advisors to command leadership. WOTS is a challenging, fast-paced, and highly structured educational program that integrates classroom lecture, guided discussion, and experiential learning opportunities to reinforce educational understanding. Candidates should expect to be submerged in a dynamic training environment both indoors and outdoors. The candidate must be motivated to understand and apply the foundation of the profession of arms, communication, leadership, and followership taught at WOTS.

1.A. (U) Candidates will embody and exemplify the Air Force Core Values of Integrity First, Service Before Self, and Excellence in All We Do. Core Values are fundamental and define our service's identity through a common bond among all professional Airmen. For those who join this proud community, being a part of the Air Force family requires a commitment to always living by these values.

1.B. (U) Candidates are expected to perform at a high cognitive and intellectual level beyond simple knowledge and comprehension. Candidates will have opportunities to apply the skills learned in the flight room in novel scenarios, requiring them to analyze, evaluate, and propose solutions to problems. The warrant officer's role also focuses on attitudes and motivation within critical thinking. Candidates will tap into their affective learning beyond simply receiving and responding to information presented. They will internalize feedback from staff and peers which is crucial for personal and professional growth.

1.C. (U) Academic curriculum and associated coursework are derived from three core program areas. These program areas focus on skills, knowledge and intellectual capabilities expected of warrant officers serving in the United States Air Force. The program areas, which encapsulate the Airmen Foundational Competencies, drive our three learning outcomes:

- (1) **Professional Warfighter.** The warrant officer will demonstrate high moral character and commitment to DAF Core Values and the oath of office. These professional warfighters will exemplify DAF standards and professional ethics and embody warrior ethos as they refine their understanding of military operations. The professional warfighter understands the operating environment and key roles of the DAF. Topics of study include joint and service doctrine, such as instruments of power, joint planning, and agile combat support. Topics also includes the roles, structures, and operations of the Department of Defense across the spectrum of conflict and through various domains.
- (2) **Technical Integrator.** The warrant officer will employ leadership and followership skills as they interface with internal and external stakeholders. Topics include critical thinking, problem-solving, and change management. The technical integrator develops personal and professional networks necessary to facilitate coordination among military capabilities, technical requirements, organizational structures, and command teams. As a technical integrator, the warrant officer understands how to apply problem-solving skills to various teams, organizations, and systems to ensure unity of effort.

- (3) **Credible Advisor.** The warrant officer will effectively apply communication skills essential to providing credible insight and recommendations to commanders, senior enlisted leaders, and senior leadership. Broad categories in this core area include interpersonal, small group, and organizational dynamics as well as rigorous application of DAF communication styles. The advisor role of a warrant officer also requires nuances of persuasion, influence, and negotiation as they aid in the decision-making process by lending specialized knowledge.

2. (U) **Mission.** Prepare for day of training (DOT) 1 and execute to meet all requirements. **Candidates are expected to arrive to the Warrant Officer Training School on DOT 1, 03 August 2026 at 0800.** Candidates are expected to eat breakfast prior to arrival. **OCPs (without rank, unit/morale/MAJCOM patches) are the uniform of the day for DOT 1.** Candidates must have the American Flag patch and serviceable (hook & loop or sewn) name tapes, and US Air Force tapes. Candidates driving to WOTS will park their vehicle in the parking lot behind Bldg. #1433, on March St. If any issues arise during travel, notify your assigned WOTS cadre or the Operations Division.

3. (U) **Execution.**

3.A. (U) **Concept of Operations.** Candidates will prepare to execute the established syllabus, program schedule and WOTS curriculum at Maxwell AFB from **03 August – 01 October 2026.** Candidates will accomplish assigned preparation tasks via email prior to arrival and receive further instructions for completing the program upon arrival.

3.A.1. (U) **Commandant's Intent.** WOTS provides foundational training, education and development required for Air Force warrant officers in an environment predicated on dignity & respect.

3.B. (U) **Tasks.**

3.B.1. (U) **Instructors.**

- a. (U) Prepare to execute WOTS Class **27-01.**
- b. (U) Instruct and evaluate Warrant Officer Candidates (WOCs) for all assignments and scenario-based evaluations (SBEs) for the duration of the course.

3.B.2. (U) **Warrant Officer Candidates.**

- a. (U) Accomplish required travel arrangements using the Defense Travel System (DTS). AETC's TDY-to-School provides the line of accounting information. WOTS cannot provide any assistance with DTS. For more information regarding line of accounting information, contact your Unit Training Manager or Base Formal Training office.
- b. (U) If arriving to Maxwell AFB prior to **03 August**, check in at lodging on Maxwell AFB: University Inn, 450 LeMay Plaza, Montgomery, AL 36112 upon arrival.
- c. (U) Candidates are allowed one travel day if they are departing within the CONUS and two travel days from OCONUS locations.

3.B.3. (U) Curriculum materials are managed electronically, so please be aware that you must have access to an electronic device (tablet, laptop, etc.) capable of accessing platforms for interactive instruction (mic, video, etc.) as well as the use of word processing programs (e.g. MS Word, Adobe, etc.). We recommend a personal device as many government laptops have restrictions that interfere with commercial Wi-Fi and video conferencing platforms.

- a. (U) Canvas (<https://al-ims.okta.com/signin/verify/piv>) is the learning management system used at WOTS. It houses all expected outcomes, and the curriculum used during the program. It is imperative that candidates log in within five days prior to the class start date (CSD) and begin familiarizing themselves with the platform. Additionally, we recommend updating your Canvas profile to allow collaboration with personal email accounts for ease of access.
- b. (U) WOCs may receive login errors if they attempt to log in greater than five days from the CSD.
